Combinations for infrastructure cooling applications	33		
Ventilation	34		
VAM-FC & VAM-J Heat reclaim ventilation	34		
NEW GSIEKA Electrical heaters for VAM units	35		

All Daikin air conditioning products listed in this document operate with Daikin's own developed inverter compressor technology, delivering outstanding performance with the lowest energy consumption possible.

NOTES: All units listed in the above table of contents of this price list operate with R-32 refrigerant - they contain fluorinated greenhouse gases. R-32 has a GWP of 675. Refrigerant leakage contributes to climate change. Refrigerant with lower global warming potential (GWP) would contribute less to global warming than a refrigerant with higher GWP, if leaked to the atmosphere. These appliances contains a refrigerant fluid with a GWP equal to 675. This means that if 1 kg of this refrigerant fluid would be leaked to the atmosphere, the impact on global warming would be 675 times higher than 1 kg of CO₂ over a period of 100 years. Never try to interfere with the refrigerant circuit yourself or disassemble the product yourself and always ask a professional.

The pricelist is valid from 1. April 2020 till 31. March 2021. All prices are list prices in LEI and excl. VAT.

All prior pricelists are not valid anymore.

Price list is only intended for "B2B" (Business to Business) use from Daikin to it's business partners and must not be given or made publicly available to consumers.

Highlights

BLUEVOLUTION

p.27 **NEW** Concealed ceiling unit with high ESP
FDA200-250A

- › Change ESP to achieve optimal supply of air volume
- › Up to 26.4kW in heating mode
- › For pair combination with RZA-D

SkyAir Alpha-series

p.43 **NEW** Low height Sky Air series
RZAG-NV1/NY

- › Unique, low-height single fan portfolio from 3.5 to 13,5 kW
- › Compact unit, easy to transport and position
- › Market-leading serviceability and handling:
 - easy access to all critical components
 - newly positioned handle

SkyAir Advance-series

p.45 **NEW** Low Height Sky air series RZA-D

- › Unique, low-height single fan portfolio 20 and 25 kW capacity
- › High efficiency: SEER up to 6,25
- › Lower environmental impact thanks to R32refrigerant
- › Guaranteed operation in both cooling and heating down to -20°C
- › Reliable in operation thanks to refrigerant cooled PCB
- › Very long piping lengths up to 100 m
- › Market-leading serviceability and handling

Features & Functions explanations

Motion detection sensor

The system detects movement in the room and automatically adjusts the airflow direction and temperature in order to avoid direct contact with people. Detection is done in 2, 3 or 4 directions depending on the type of the unit. If no people are detected, the unit will automatically switch over to the energy-saving mode.

Econo mode - comfort without trouble to your power supply

The Econo mode allows you to limit the maximum power consumption of the A/C, in case you have problems that circuit breakers often trip when other appliances (vacuum cleaner, microwave oven, etc.) are running at the same time, or if you just want to limit the energy consumption. But it's under your control, and when you need maximum cooling or heating, you can always deactivate it!

Auto-cleaning filter - optimum comfort and efficiency at all times

Automatic filter cleaning ensures no dust accumulates on the units dust filter, which ensures the most efficient and most comfortable operation throughout the operation life of the unit, because the air-flow doesn't get blocked by accumulating dust. Additionally, removal of the dust is much simpler and easier than on units without automatic cleaning, where the filters must be removed and washed regularly.

Intelligent thermal sensor

This specially designed sensor detects the temperature differences of various surfaces like the floor and walls and uses the information to intelligently distribute the temperature evenly in your room.

Coanda effect

Permits equal air temperature distribution without noticeable air flow in the areas where people are present

Comfort airflow mode - comfort both in cooling and heating

The Comfort Airflow Mode automatically adjusts the air flow direction to achieve the most comfortable air temperature distribution in the room, while avoiding blowing directly at persons.

3-D airflow - equal temperature throughout the the room

3-D Airflow equipped units have the ability to direct the airflow not just up or down, but also left or right – either based on the users request, or automatically. This achieves perfect air distribution or provides you the ability to control exactly where the air goes.

Comfort sleep mode

A unique function that controls precisely the temperature in the room in line with the human sleep cycle, improving the quality of sleep.

Powerful mode - maximum capacity, quick comfort

The Powerful mode allows you to reach the maximum capacity from the unit with a single push of a button, and yet you don't have to worry about your electricity bill in case you forget it running. This functions enables you to cool down or heat up a room in the shortest possible time, and after 20 minutes, the unit automatically switches to normal operation, preventing the waste of energy.

Silent operation (indoor / outdoor unit) - because silence is golden!

Some of our indoor units can reach exceptionally low sound levels that go down to even 19dBA, which is the barely audible level of leaves moving in the wind, which allows them to be switched on during sleeping as well. Some outdoor units are also capable of silent operation that can be very useful in dense residential areas or apartment blocks, where they won't disturb the neighbourhood even during night-time.

Scheduling - look forward to returning to a comfortable home

The weekly timer allows you to program a full week of operation of the A/C, so that you don't have to bother with turning the A/C on and off manually. Up to 4 operations for every day of the week can be programmed. Units without a weekly timer have a 24-hour timer, allowing you to program one time when the unit should turn on, and one time for turning off, each day.

Online control possibility - absolute control, whenever, from wherever
Units with the Online Control possibility can be controlled from anywhere, any time, simply from your mobile phone, or tablet. The functionality requires an optional accessory, and a local area network must be available to connect the unit to. In addition to simple and easy to use control directly from your mobile device, most units have options available for connection to sophisticated home automation or building management systems using the Modbus or KNX communication protocols or to Daikin central control. (Connection via BACnet or LON also possible via Daikin DIII-Net)

Air purification filters - pure air because we care!

Flash Streamer: This function quickly decomposes allergens such as mould, mites, and pollen with high speed electrons that have a powerful ability to oxidize.

Titanium apatite deodorising filter: Odours and viruses are kept under control by this air purifying filter which is able to trap microscopic particles, decompose odours and even remove bacteria and deactivate viruses with its photocatalytic deodorizing function.

Silver allergen removal and air purifying filter: Daikin's high quality air purification filters are capable of absorbing and removing bacteria, viruses, ammonia, nitrogen oxide and other harmful substances like smells of tobacco and pets along with any other unpleasant odours that may have infiltrated your home.

Air filter: This filter catches large dust particles, leaving you with nothing but allergen-free, pure and clean air in a completely unnoticeable way.

Extra-wide operation range - be sure it will operate when you need it most!

There's nothing nicer than a cosy warm living room while it's freezing cold outside - a number of our ranges are guaranteed to heat even when it gets as cold as -20°C, or even -25°C outside!

Uninterrupted cooling operation when the outside is down to -20°C.

Multi-Split application - comfort for the whole home, from a single outdoor unit

This unit can be applied connected to multi-split outdoor units. Multi-split applications allow you to air condition several rooms using a single outdoor unit, which gives the benefit of a simpler and more elegant installation with lower space requirements outside. Multi-split outdoor units able to server from 2 to 5 indoor units are available, and with the Super-Multi-Plus system, up to 9 indoor units can be served.

SkyAir Twin/Triple/Double Twin application - equal temperature everywhere, even in large spaces

Air conditioning single, large spaces can't always be done effectively with just one indoor unit. The SkyAir Twin, Triple and Double-Twin applications allow you to divide the capacity of a single outdoor unit between two, three or four indoor units, respectively. This ensures good and equal air and temperature distribution throughout the space, without the need to multiple smaller outdoor units. This icon symbolizes the possibility to use the indoor unit in such applications.

Duty rotation & back up as standard

Duty rotation and back-up functions are crucial for infrastructure cooling applications. Normally these functions are realised by utilizing additional adaptors. However, in case of Sky Air Smart or Sky Air Alpha outdoor units, duty rotation and back-up functions are embedded inside the BRC1E53* / BRC1H51*.

Drain pump

This unit is standard fitted (or optionally, if indicated) with a condensate drain pump. Condensate water which is generated during cooling operation can then be easily drained using piping located even well above the unit. Original Daikin condensate drain pumps are quiet running, reliable and have a low energy consumption thanks to the employment of DC motors.

Multi zoning

The multi-zoning system increases the flexibility of Split, Sky Air and VRV system applications by allowing multiple individually-controlled climate zones to be served by one indoor unit.

Sky Air A-series with R-32 refrigerant pair application overview (3,5 to 25 kW) - technical data & prices

This is just an overview, please check the product pages for more detailed information

Range		Indoor unit	Outdoor unit	Standard Panel	Wired Remote Controller	Phase	Capacity (kW)

Accessories for FDXM-F9 units

Material name	Description	Price Lei
BRC1H519W7/S7/K7	New premium wired remote controller with white/silver/black color - will fully replace BRC1E53* after stock out	956,-
BRC1E53A/B/C	Standard wired R/C (A=AT / B=CZ, HR, HU, RO, SI, BG / C=SK, AL)	831,-
BRC4C65	Infra-red wireless remote controller	502,-
BRP069A81	WiFi control interface	653,-
BAE20A62	Automatic filter cleaning option kit for FDXM25-35F9	2.300,-
BAE20A102	Automatic filter cleaning option kit for FDXM50-60F9	2.571,-

Note: Duty rotation and back-up functions only work with certain indoor units and only with Seasonal High Inverter outdoors. Wired remote controller must be connected to indoor unit to operate online controller.

Unique auto cleaning technology

Reduce running costs

- › Automatic filter cleaning ensures high efficiencies and low maintenance costs because the filter is always clean

Minimal time required for filter cleaning

- › The dust box can be emptied with a vacuum cleaner for fast and easy cleaning
- › No more dirty ceilings

Unique technology

- › Unique and innovative filter technology inspired by the Daikin auto cleaning cassette

Improved indoor air quality

- › Optimum airflow eliminates draft and insulates sound

How does it work?

- 1 Scheduled automatic filter cleaning
- 2 Dust collects in a dust box that's integrated into the unit
- 3 The dust can easily be removed with a vacuum cleaner

Concealed ceiling units

- › Ideal for hotels and residential applications
- › Cleaning team /owner can clean the filter

More details on pages 20-21

Round flow cassette

- › Ideal for retail
- › Staff/owner can clean the filter
- › No need to use a ladder to reach the unit
- › Available in standard white and black

More details on pages 16-18

The multi-zoning system is a room-by-room controller. It is fitted with motorised dampers, which immediately adapt using Daikin ducted solutions. This system supports control of up to 8 zones via a centralised thermostat located in the main room and individual thermostats for each of the zones.

Benefits

Increased comfort

- › Increases comfort levels by allowing more individual zone control
 - Up to 8 individual zones can be served thanks to separate modulating dampers
 - Individual thermostat for room-by-room or zone-by-zone control

Easy to install

- › Automatic air flow adjustment according to the demand
- › Easy to install, integrates with the Daikin indoor units and system controls
- › Time saving as plenum comes fully pre-assembled with dampers, and control boards
- › Reduces the amount of refrigerant required in the installation

How does it work?

Individual zone thermostats

Blueface - Airzone Main Thermostat

- › Color graphic interface for controlling zones
- › Wired communication

AZCE6BLUEFACECB

Price Lei
1.332,-

Airzone Zone Thermostat

- › Graphic interface with low-energy e-ink screen for controlling zones
- › Radio communication

AZCE6THINKRB

Price Lei
1.525,-

Airzone Zone Thermostat

- › Thermostat with buttons for controlling the temperature
- › Radio communication

AZCE6LITERB

Price Lei
1.195,-

Notes and explanations:

2: Twin applications (two indoor units)

3: Triple applications (three indoor units)

4: Double-Twin applications (four indoor units)

It is possible to mix different unit types of same capacity size in one system (e.g. Twin system with FCAG35B + FFA35A9)

It is not possible to mix different capacity sizes of indoor units in one system

Cassette indoor units FCAG-B, FCAHG-H and FFA-A9 have various decoration panels to choose from. Only the most common one is listed above. For other decoration panels, please see the Pair combination page of the respective indoor unit.

Please check on the pages of the individual indoor units if Remote controller and other accessories are included in the price of the indoor unit or need to be ordered separately.

Refnet joints for Sky Air Twin, Triple and Double-Twin applications				Quantity needed	Price per piece

	RZA-D	all combinations		3	456,-

Combinations for infrastructure cooling applications

Sky Air series FOR INFRASTRUCTURE COOLING

Cooling infrastructure applications (server rooms, telecom shelters, laboratories, etc.) is often linked to low humidity inside the air conditioned space. Low humidity reduces the ability of indoor units to transfer cooling capacity, therefore the following combinations are specially designed for such applications to regain the capacity even in dry environments.

Typical infrastructure cooling capacity:	Sky Air Alpha series							Indoor unit price (per unit) Lei
	3,51 kW	5,01 kW	5,71 kW	6,0 kW	7,5 kW	9,3 kW	10,3 kW	
Round-flow cassette (BYCQ140E deco. panel)	FCAG35B			3	4	4	4	3.030,-

Notes and explanations:

Cooling capacity is for -15°C outdoor temperature, 22°CDB indoor temperature, and ~35% indoor relative humidity. At these conditions, the system's Sensible Heat Ratio (SHR) is 100%, which means it will not dehumidify. **P:** Pair applications (one indoor unit); **2:** Twin applications (two indoor units); **3:** Triple applications (three indoor units); **4:** Double-Twin applications (four indoor units). It is possible to mix different unit types of same capacity size in one system (e.g. Twin system with FCAG35B + FFA35A9). It is not possible to mix different capacity sizes of indoor units in one system. Cassette indoor units FCAG-B, FCAHG-H and FFA-A9 have various decoration panels to choose from. Only the most common one is listed above. For other decoration panels, please see the Pair combination page of the respective indoor unit.

For more combinations and exact design conditions, please refer to the technical databook of the outdoor unit.

(*) ASYCP1R (98,-): RZAG-A asymmetric combinations require piping reducer option (connecting a pipe of ø12,7 to a gas pipe connection port for ø15,9)

Please check on the pages of the individual indoor units if Remote controller and other accessories are included in the price of the indoor unit or need to be ordered separately.

Refnet joints for Sky Air Twin, Triple and Double-Twin applications				Quantity needed	Price per piece Lei
Twin applications	up to 14 kW	all type of indoor combinations	KHRQ58T	1	477,-

Air filter (class G3)

Optional Accessories

Control		Price Lei
BRC301B61	Wired remote controller for HRV	973,-
BRC1D52	Basic wired remote controller (for combined control together with standard VRV indoor units)	588,-
BRC1E53A	Standard wired remote controller with full-text interface and back-light with new energy saving, sound minimization functions for Austria	831,-
BRC1E53B	Standard wired remote controller with full-text interface and back-light with new energy saving, sound minimization functions for Czech, Croatia, Hungarian, Romanian, Slovenian, Bulgarian	831,-
BRC1E53C	Standard wired remote controller with full-text interface and back-light with new energy saving, sound minimization functions for Slovakian and Albanian	831,-
BRC1H519W7/S7/K7	New premium wired remote controller with white/silver/black color - will fully replace BRC1E53* after stock out.	956,-
RTD-10	Universal control adaptor	1.891,-
RTD-NET	Modbus adaptor	1.422,-
RTD-20	Advanced control adaptor for VAM control based on CO ₂ or presence sensor input	2.268,-

Other		Price Lei
BRP4A50 * 1	Control kit for auxiliary 3rd party heater and GSIEKA (only for old models VAM150-250FC)	933,-
KRP1C4 *1 / *2	Control kit for auxiliary 3rd party humidifier - only for VAM-J units.	on request
KRP50-2	Adaptor PCB for 3rd party humidifier control / for operation signal output - only for VAM150/250FC9 units	1.104,-
KRP2A51 *3	Wiring adaptor for electrical appendices	1.804,-
EKAFVJ50F6	M6-class high efficiency filter - for VAM350~500J units	750,-
EKAFVJ65F6	M6-class high efficiency filter - for VAM650 units	834,-
EKAFVJ100F6	M6-class high efficiency filter - for VAM800J & VAM1000J units; two kits are necessary for VAM1500~2000J units	1.003,-
EKAFVJ50F7	F7-class high efficiency filter - for VAM350~500J units	825,-
EKAFVJ65F7	F7-class high efficiency filter - for VAM650 units	918,-
EKAFVJ100F7	F7-class high efficiency filter - for VAM800J & VAM1000J units; two kits are necessary for VAM1500~2000J units	1.102,-
EKAFVJ50F8	F8-class high efficiency filter - for VAM350~500J units	918,-
EKAFVJ65F8	F8-class high efficiency filter - for VAM650 units	1.017,-
EKAFVJ100F8	F8-class high efficiency filter - for VAM800J & VAM1000J units; two kits are necessary for VAM1500~2000J units	1.222,-
BRYMA65	CO ₂ sensor for demand-controlled ventilation - for VAM350~650J units	2.801,-
BRYMA100	CO ₂ sensor for demand-controlled ventilation - for VAM800~1000J units	2.801,-
BRYMA200	CO ₂ sensor for demand-controlled ventilation - for VAM1500~2000J units	2.801,-
*1) EKMPVAM	Mounting plate for control kit - only necessary for VAM1500~2000J units	269,-
*1) EKMP65VAM	Mounting plate for control kit - only necessary for VAM650J unit	269,-
*2) KRP50-2A90	Installation box - only necessary for VAM650~1500~2000J units	on request
*3) KRP1BB101	Installation box - only necessary for VAM350~2000J units	364,-
KDDM24B100	Silencer for 250 mm round duct - for VAM650~1000J units; two kits are necessary for VAM1500~2000J units	3.688,-
KDDM24B50	Silencer for 200 mm round duct for VAM500J unit	3.724,-
EKPLEN200	plenum for VAM1500~2000J units - contains 1 plenum for half side (up to 4 plenums can be used on a single unit)	597,-

NEW GSIEKA

Electrical heater for VAM

- › Total solution for fresh air with Daikin supply of both VAM and electrical heaters
- › Increased comfort in low outdoor temperature thanks to the heated outdoor air
- › Integrated electrical heater concept (no additional accessories required)
- › Standard dual flow and temperature sensor
- › Flexible setting with adjustable setpoint
- › Increased safety with 2 cut-outs: manual & automatic

Control and Adaptor accessories for indoor units

See page 40-41 for combination table with indoor units		Price Lei
CONTROL	 <p>BRC1H519W7/S7/K7 New wired remote controller with premium design (white,silver,black) comes with intuitive touch button control. Includes, setpoint & fan adjustment, mode change, louver control, filter sign&reset & error indication. Other advanced settings such as scheduling, setback & setpoint limitations can be easily done via smartphone.</p>	956,-
	 <p>BRC1E53A for Austria BRC1E53B for Czech, Croatia, Hungarian, Romanian, Slovenian, Bulgarian BRC1E53C for Slovakian and Albanian New standard wired remote controller – includes multi-language full-text interface, back-light, weekly timer, integrated temperature sensor, VAM unit control, limit operation and room temperature display. Connects to P1/P2 terminals. Includes new functions for energy saving, infrastructure cooling & sound minimization.</p>	831,-
	 <p>BRC1D52 Basic wired remote controller – includes weekly timer, integrated temperature sensor, VAM unit control, limit operation. Connects to P1/P2 terminals.</p>	588,-
	 <p>BRC2E52C Simplified wired remote controller with operation mode button. Includes simple, symbol-driven interface for end-users, with all advanced functionalities of the BRC1E accessible via a lockable menu. Connects to P1/P2 terminals.</p>	735,-
	 <p>BRC3E52C Simplified wired remote controller without operation mode button (Caution: operation mode (e.g. cooling / heating) can not be changed from this controller). Other features like on BRC2E52C. Connects to P1/P2 terminals.</p>	735,-
	 <p>BRC073 - Optional wired remote controller for Split indoor units. Connects to S21 port.</p>	888,-
	<p>BRCW901A03 - 3m cable for standard remote controller BRC073.</p>	117,-
	<p>BRCW901A08 - 8m cable for standard remote controller BRC073.</p>	183,-
	 <p>BRC4* / BRC7* Infra-red wireless remote controller – compared to BRC1D52 does not have timer, temperature sensor, VAM unit control and limit operation. Receiver depends on particular model / indoor unit and connects to indoor unit PCB or to P1/P2 terminals.</p>	Type and price depends on indoor unit type
	 <p>DCM601A51 Intelligent Touch Manager Complete Daikin mini BMS for building climate control with smart energy management and third-party equipment integration</p>	27.522,-
	 <p>DCS601C51 Intelligent Touch Controller The intelligent Touch Controller is capable of controlling / monitoring up to 64 groups of indoor units.</p>	10.902,-
	 <p>K.RSS External wireless air temperature sensor – allows temperature measurement exactly in the location of room occupants without the need of running extra wiring. Connects instead of the standard suction temperature sensor to the indoor unit's PCB.</p>	684,-
	 <p>KRCS01-* External wired air temperature sensor – allows temperature measurement exactly in the location of room occupants. Connects instead of the standard suction temperature sensor to the indoor unit's PCB.</p>	Type depends on indoor unit type 461,-
	INDOOR UNIT CONTROL AND INTERFACE ADAPPTIONS	 <p>KLIC-DI KNX Adaptor for SkyAir and VRV indoor units – provides a communication interface to the KNX protocol for 1 indoor unit. Connects to P1/P2 terminals. A BRC* controller can but does not have to be connected as well. For installation outside of the indoor unit.</p>
 <p>KLIC-DD KNX Adaptor for Split indoor units – provides a communication interface to the KNX protocol for 1 indoor unit. Connects to S21 terminal of the indoor unit. For installation outside of the indoor unit.</p>		1.229,-
 <p>RTD-10 Universal control adaptor – provides for external monitoring/control via 0-10kΩ resistance or 0-10VDC input signals and dry contact output signals (operation or defrost signal, error status signal), and provides a communication interface to the Modbus protocol. For 1 P1/P2 group of indoor units (up to 16 indoor units). Connects to P1/P2 terminals. A BRC* controller can but does not have to be connected as well. For installation outside of the indoor unit.</p>		1.891,-
 <p>RTD-HO Intelligent hotel room adaptor – provides intelligent unit control based on inputs from key card and window contacts and communication interface to the Modbus protocol. For 1 P1/P2 group of indoor units (up to 16 indoor units). Connects to P1/P2 terminals. A BRC* controller can but does not have to be connected as well. For installation outside of the indoor unit.</p>		1.891,-
 <p>RTD-NET Modbus adaptor for SkyAir and VRV units – provides a communication interface to the Modbus protocol for 1 P1/P2 group of indoor units (up to 16 indoor – control is simultaneous for entire group, monitoring is individual for every unit of the group). Connects to P1/P2 terminals. A BRC* controller can but does not have to be connected as well. For installation outside of the indoor unit.</p>		1.422,-
 <p>RTD-20 Advanced control adaptor for retail and office applications – provides advanced control and energy saving functionality for multiple shop floor and user control zones, control of VAM units based on CO₂ sensor input, control of Air Curtains based on outdoor air conditions, intelligent control of units installed in rooms with movable walls, etc. For installation outside of the indoor unit.</p>		2.268,-
 <p>RTD-RA Modbus adaptor for Split indoor units – provides a communication interface to the Modbus protocol for 1 indoor unit. Connects to S21 terminal of the indoor unit. For installation outside of the indoor unit.</p>		1.222,-

Control and Adaptor accessories for indoor units

See page 40-41 for combination table with indoor units		Price Lei
INDOOR UNIT CONTROL AND INTERFACE ADAPPTIONS	 DTA113B51 Rotation & Backup adaptor – provides autonomous backup and unit rotation for up to 4 VRV or SkyAir units. Connects to P1/P2 terminals and requires a BRC1* controller to be connected as well. Not combinable with any other P1/P2 device.	3.329,-
	 BRP7A* Wiring adaptor for window and key-card contacts to control an indoor unit or group of indoor units based on window and/or key-card status. Connects to P1/P2 terminals and requires a BRC2E52C or BRC3E52C to be connected as well. Not combinable with any other P1/P2 device.	473,-
	 KRP4A* Wiring adaptor for external monitoring/control via dry contacts and set-point control via 0-140Ω. Connects to P1/P2 terminals and requires a BRC1/2/4/7 controller to be connected as well. Not combinable with any other P1/P2 device.	958,-
	 (E)KRP1B* / (E)KRP1C* Wiring adaptor with 4 output signals – provides dry contacts, which can be used to activate/deactivate humidifiers, electrical heaters, fresh air fans, etc. based on the indoor unit's operation. Outputs: Compressor or Error status, Indoor unit fan status, Auxiliary heater signal, Humidifier signal. Connects to the indoor unit's PCB.	Type and price depends on indoor unit type
	 KRP1BB* Wiring adaptor with 2 output signals – provides dry contacts, which can be used to activate/deactivate humidifiers, electrical heaters, fresh air fans, etc. based on the indoor unit's operation. Outputs: Compressor or Error status, Indoor unit fan status. Connects to the indoor unit's PCB. An installation box may be necessary, depending on the indoor unit – see pages <OV>-41.	Type and price depends on indoor unit type
	 KRP413A15 Adaptor PCB for simple external control of 1 Split indoor unit. Connects to S21 terminal of the indoor unit. For installation outside of the indoor unit.	1.134,-
	 DTA112B51 Centralized control adaptor mainly for R-410A SkyAir units. Provides F1/F2 terminals for connecting the indoor unit to the Daikin centralized control communication line (DIII-Net), by which the unit can be controlled from Daikin centralized controllers or BMS gateways. Connects to X60A and X61A terminals of the indoor unit. For installation inside of the indoor unit.	1.070,-
	 KRP928A25 Centralized control adaptor for Split indoor units. Provides F1/F2 terminals for connecting the indoor unit to the Daikin centralized control communication line (DIII-Net), by which the unit can be controlled from Daikin centralized controllers or BMS gateways. Connects to S21 terminal of the indoor unit. For installation outside of the indoor unit.	1.536,-
	 S21 Adaptor Optional PCB for providing the S21 connector for units that do not have it standard. The S21 connector is required for connecting most of the control accessories listed above. If necessary, is standard included inside the applicable WiFi control interface and delivered as part of the BRP069* indoor set	Type and price depends on indoor unit type
	 EKORORO- Wiring adaptor for Remote On / Off or Forced Off. Provides the T1/T2 contacts which can be used to turn a SkyAir indoor unit On/Off remotely, or put the unit into Forced Off mode.	Type and price depends on indoor unit type
	 KRP* Installation box / Mounting plate for adaptor PCBs for units where there is no space in the switchbox.	Type and price depends on indoor unit type

BRC1H519W7 / BRC1H519S7 / BRC1H519K7

Madoka wired remote controller for Sky Air and VRV

BRC1H519W7

BRC1H519S7

BRC1H519K7

A complete redesigned controller focussed to enhance user experience

- › Sleek and elegant design
- › Intuitive touch-button control
- NEW** › Three display options: standard, detailed and **new symbolic view**
- › Direct access to basic functions (on/off, set point, mode, target values, fan speed, louvres, filter icon & reset, error & code)
- › Three colours to match any interior
- › Compact, measures only 85 x 85 mm
- › Real time clock with auto update to daylight saving time

Hotel application features

- › Energy saving through key card, window contact integration and set point limitation (BRP7A*)
- › Flexible setback function ensures room temperature remains within comfortable limits to ensure guest comfort

Key card and window contact integration

Optional Accessories for Split and SkyAir units

Intelligent Tablet Controller with local & cloud control		Price Lei
 <p>DCC601A51 Centralised touch controller with cloud connection for Split, Sky Air, VRV, ventilation, air curtains and hot water (up to 32 indoors)</p>		4.265,-
 <p>AL-CCD07-VESA-1 Optional screen for local control (wired option which can be mounted on the wall)</p>		4.732,-

RZAG-N & RZAG-A

Sky Air Alpha series outdoor units

Industry leading technology in the most compact casing ever

- > **NEW** Unique, low-height single fan range
- > **NEW** Compact dimensions allow almost unnoticeable installation
- > **NEW** Market-leading serviceability and handling
- > The perfect balance in efficiency and comfort thanks to Variable Refrigerant Temperature: top seasonal efficiency throughout most of the year and quick reaction speed on the hottest days
- > Suits high sensible, infrastructure cooling applications
- > Replace existing systems with R-32 technology without needing to replace the piping

- > Guarantees operation in both heating and cooling mode down to -20°C
- > Refrigerant cooled PCB guarantees reliable cooling, as it is not influenced by ambient temperature.
- > Maximum piping length up to 85m (50m for RZAG-A)
- > Outdoor units for pair, twin, triple, double twin application

RZASG-M

Sky Air Advance series outdoor units

Technology and comfort combined for commercial applications

- > High efficiency:
 - Energy labels up to A++ (cooling) /A+ (heating)
 - Compressor offers substantial efficiency improvements
- > Very compact and easy to install outdoor units
- > Replace existing systems without having to replace the piping

- > Guarantees operation in both heating and cooling mode down to -15°C
- > With a gas cooled PCB, reliable cooling is guaranteed, as it is not influenced by ambient temperature
- > Maximum piping length up to 50m.

AZAS-M & ARXM71N9

Sky Air Active series outdoor units

Ideal solution for busy environments and small shops

- › High efficiency:
 - Energy labels up to A+ (cooling) / A (heating)
 - compressor offers substantial efficiency improvements
- › Choosing for an R-32 product, reduces the environmental impact with 68% compared to R-410A, leads directly to lower energy consumption thanks to its high energy efficiency and has a lower refrigerant charge
- › Very compact and easy to install
- › Replace existing systems with R-32 technology without needing to replace the piping

- › Guarantees operation in heating mode down to -15°C and in cooling mode down to -5°C
- › Refrigerant cooled PCB guarantees reliable cooling, as it is not influenced by ambient temperature (AZAS only).
- › Piping length up to 30m
- › Exclusively offered for pair applications

RZA-D

Large Sky Air outdoor units

Large Sky Air system for commercial applications in the most compact casing ever

- › Compact (870mm high) and lightweight single fan design makes the unit unobtrusive, saves space and is easy to install
- › Marketing-leading serviceability and handling thanks to wide access area, 7-segment display and additional handle
- › Choosing for an R-32 product, reduces the environmental impact with 68% compared to R-410A, leads directly to lower energy consumption thanks to its high energy efficiency and has a lower refrigerant charge
- › Replace existing systems with R-32 technology without needing to replace the piping 
- › Guarantees operation in heating mode down to -20°C
- › Refrigerant cooled PCB guarantees reliable cooling, as it is not influenced by ambient temperature
- › Maximum piping length up to 100m
- › Maximum installation height difference up to 30m
- › Outdoor units for pair, twin, triple, double twin application

(1) MFA is used to select the circuit breaker and the ground fault circuit interrupter (earth leakage circuit breaker). For more detailed information on each combination, please refer to the electrical data drawing.

Electrical wiring guidelines

All electrical power wiring must be selected and done by a qualified electrician and must comply to local and national regulations. The below information serves only as informative guidelines.

Split & Multi Split

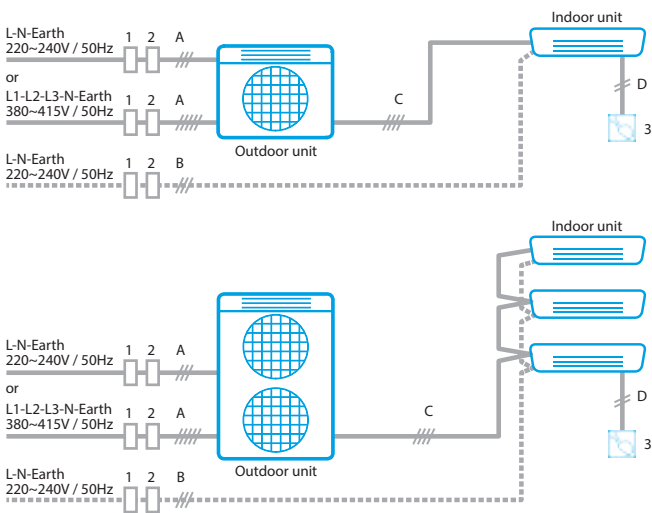

Item	Item description	Item details
1	Earth leakage breaker	<ul style="list-style-type: none"> High-speed type (30mA <0,1s) Must be able to handle higher harmonics Must not interrupt the Earth wire!
2	Circuit breaker	<ul style="list-style-type: none"> Breaker capacity must not exceed MFA value of selected combination Must not interrupt the Earth wire!
3	Optional control accessory	<ul style="list-style-type: none"> e.g. Online Controller, wired remote controller, etc.
A	Main power supply line	<ul style="list-style-type: none"> H05RN type, 3-core including earth wire Wire size must be selected according to local and national regulations based on the MCA value of selected combination (at least 2,5 mm²)
B	Inter-unit wiring "1-2-3-Earth"	<ul style="list-style-type: none"> H05RN type, 4-core including earth wire 1,5 mm², 2,5 mm² if length exceeds 10 m
C	Control accessory cable	<ul style="list-style-type: none"> Supplied with control accessory

Super-Multi-Plus

Daikin Service Portfolio

Saving energy doesn't stop with the purchase or installation of energy-efficient equipment; it has to be kept running under optimum conditions.

Good maintenance and servicing are key elements in ensuring the maximum performance.

- Are you sure the filters are clean and none of the components are defective?
- Are all of your settings correct?

Any of these things may lead to a reduced level of comfort. And while you may not notice the difference right away, you will certainly notice it at the end of the year – when you pay your energy bill.

Our Daikin design team is constantly striving to improve the energy efficiency of our systems.

We at Daikin Service are here to support you in keeping your units up and running efficiently by means of optimised commissioning and start-up, regular and preventative maintenance, remote monitoring, improving the performance of units, and providing cost effective upgrades to benefit from the efficiency gains from our latest state of the art technology.

Commissioning

To guarantee your Daikin unit efficiency and long term performance, Daikin offers the **professional start-up of your Daikin system** by highly qualified, OEM educated engineers as part of the commissioning services.

Commissioning through an authorized Partner or by Daikin itself assures you that your unit is working as it should and is delivering all the benefits of a unique climate.

Every commissioning is documented as per Daikin standard and a detailed commissioning report is provided, detailing all activities done and recording the functioning of the units.

The prices listed are based on completion of the Pre-Commissioning checklist which covers a range of core activities including the general conditions at the site, provision of power and the required electrical distribution as well as installation related topics. This ensures that the service can be provided efficiently, on time and giving the best results. For the latest edition of the Pre-Commissioning checklist please visit: www.daikin-ce.com

Maintenance

Maintenance is the key element to ensure the quality, efficiency and flawless operation of any asset.

Our Care agreements are based on years of experience to ensure you reap the full benefits of having Daikin Certified engineers maintain your equipment.

- Be prepared for the hot season
- Lower energy bill & CO₂ emissions
- Reduce the impact of virus, bacteria and pollen through clean filters
- Ensure silent operation

Regular maintenance of a unit or system ensures that electricity costs

and performance are not jeopardized, and that the safety features and system integrity are in line with the latest standards and regulations.

Regular care safeguards your investment for the full lifetime of the Daikin System. Downtime and failures are avoided, while keeping operating costs low, as they should be throughout the entire system lifecycle.

Preventive care plans give you cost transparency avoiding unexpected repair costs or degradation of comfort, quality or production loss.

Our Care packages also include a comprehensive test of the unit using

special Daikin developed diagnostic software to check for leaks and trouble spots.

Daikin Cares contains 3 different levels of maintenance agreements catering to your every need. In addition to these 3 Care packages Daikin offers a comprehensive set of options you can choose from.

1. Care:

Care is the minimal requirement to fulfil current legislation requirements, and makes sure your unit is operating in a correct fashion and according to parameters.

The Care package includes the following services:

- Inspections based on predefined activities
- Soft- and firmware upgrades as needed and if required
- Validated Log book

2. Preventive Care:

Preventive Care keeps the Split/Sky Air unit in optimal condition for the long run.

In addition to the maintenance activities included in the Care package, Preventive Care includes:

- Service based on predefined activities
- Cleaning of the heat exchangers
- On-site system diagnostic and/or analysis during service intervention
- Comprehensive, predictive status & measurement report
- Recorded, retrievable service history of each unit
- Emergency support & callout
- Access to technical assistance and repair service

3. Extended Care:

Extended Care provides maximum equipment availability at the minimum Total Cost of Ownership.

In addition to the activities mentioned in the Preventive care package, Extended Care includes:

- Labor- & travel cost, spare parts for planned maintenances are included
- Labor- & travel cost, spare parts for repairs are included
- Refrigerant is included
- Extension of warranty

Options:

- Energy audit & report
- Specialist support and consultancy
- Predictive maintenance

Service Portfolio

E-Parts

Find the correct spare part for your Daikin unit, check availability (real-time) and order online.

All in just a few simple steps.

Your advantages:

- › Always available
- › Fast handling
- › „real time“ availability
- › Free shipment
- › Flexible delivery address
- › Prompt feedback

Register now to use the E-Parts service

You can find the online registration form on

www.daikin.xy/someaddress

Always accessible for you

You can find the links to E-Parts and to the spareparts bank on our Business Portal:

Service Academy

The Daikin Service Academy offers individual learning paths covering all service cases for Daikin products.

Our goal is to help you delivering better Service on site and therefore grow your business.

Goals & Objectives

With the Daikin Service Academy we want to offer a uniform European learning program for service technicians (internal & external) to become the best of the best.

- › Ensure that our partners have skilled labour available
- › Enable and deliver high quality Service to our end users
- › Enhance performance and efficiency, using less time for service interventions
- › Improve quality and hence customer satisfaction on site
- › Foster career paths to keep service technicians in the HVAC-R industry
- › Offer trainings in local language wherever possible

Our training packages cover following areas:

- › Installation & Pre-Commissioning
- › Commissioning
- › Maintenance
- › Troubleshooting & Repair
- › Application & Design

Please contact us for more information about the Daikin Academy Central Europe:

academy@daikin-ce.com

Low height.
High value.

More flexibility for your business with single fan casings in the whole Sky Air range

Unique to the market: We proudly present our new low-height single fan outdoor units across all Sky Air ranges – from 3.5 to 25 kW.

- › More flexibility in positioning, easier transport and installation
- › Market-leading serviceability and handling – with easy access to all components and 7-segment display
- › Reliable cooling thanks to refrigerant cooled PCB
- › Full portfolio of connectable R-32 indoor units
